TRANSFER

Each frame lands instantly on my tethered iPhone, already edited and framed.

03

SEND

Guests tap their photo, enter a number or email, or choose AirDrop. That’s it.

Guests receive a private link to access and download their full-res photos, ready to post.

A border pulled from the book's own pink and grey, so guests carry the cover home.

A darker version for low light. Either way, every repost points back to Transparency.

NOTE

Frames shown are concepts only. Final frame graphics come from the Respective team, or send over the event files and I'll turn around mockups for your approval.
